Screening Logs

Please remember to send your screening logs to **ninja@ndorms.ox.ac.uk** at the start of each month

26 NINJA-P Participants Recruited!

Congratulations all NINJA sites who have recruited 22 patients in April. All sites recruited their first patient well within the timelines set by the Trusts!

NINJA Recruits

Recruitment

Guys and St Thomas' is currently the top recruiter, but Hull are close behind and Mid-Essex and Oxford are catching up!

Which site will randomise 10 patients first?

Data Entry

It is vital that all sites enter the data from the CRFs onto the database as soon as possible after collecting the data. If you are having any problems using the OpenClinica database please let the Oxford SITU team know!

Full NINJA Study

The NINJA team will be present at the RSTN Day 2015 so please do come and find us if you would like to be involved in the main trial. Alternatively you can email us if you would like more information about how to participate.
