Changes in burns management: Referrals		
Were burns that you would previously have brought to the unit managed locally with advice? e.g. at the GP practice, referring hospital etc	○ Yes ○ No	
Which burns did you manage in this way?		
Did you make changes to the way referrals were made to your service during the COVID-19 pandemic?	○ Yes ○ No	
If yes, how?		

Changes in burns management: Staff deployment	t and Staffing levels
Were staff from your team redeployed as part of the COVID-19 response?	○ Yes ○ No
Which team members were redeployed?	<ul> <li>□ Doctors</li> <li>□ Nurses</li> <li>□ Physiotherapists/ Occupational Therapists</li> <li>□ Dieticians</li> <li>□ Psychologists</li> <li>□ Speech and language therapists</li> <li>□ Other</li> </ul>
Where were these team members redeployed to?	
Please specify grade of doctors redeployed:	☐ F1-2 ☐ CT1-2 ☐ ST3-8 ☐ Consultant
Please specify banding of nurses redeployed:	<ul><li>☐ HCA</li><li>☐ Band 5 and below</li><li>☐ Band 6 and above</li></ul>
If other, please specify	
% of doctors redeployed	
% of nurses redeployed	
% of physiotherapists/ occupation therapists redeployed	
% of dieticians redeployed	
% of psychologists redeployed	
% of speech and language therapists redeployed	
% of other redeployed	
Did staff redeployment impact your burns service provision?	
If yes, how?	

Page 4 of 12

Did staff sickness or isolation impact your burns service provision?	
If yes, how?	
What percentage of your staff were off sick or isolating due to COVID-19?	
	O Vos. O No
Did staff shielding impact your burns service provision?	
If yes, how?	
What percentage of your staff were off sick or isolating due to COVID-19?	

Changes in burns management: 110/HDU availa	ability	
Was there a change in the ITU/HDU avaliability for ADULT burns patients?	○ Yes ○ No	
Did this affect your ability to accept referrals?	○ Yes ○ No	
Did this affect HDU/ITU support available post-operatively?	○ Yes ○ No	
Did this lead to changes in patient management?	○ Yes ○ No	
If yes, how?		
Was there a change in ITU/HDU availability for PAEDIATRIC burns patients?	○ Yes ○ No	
Did this affect your ability to accept referrals?	○ Yes ○ No	
Did this affect HDU/ITU support available post-operatively?	○ Yes ○ No	
Did this lead to changes in patient management?	○ Yes ○ No	
If yes, how?		
How did this affect the service you delivered and management decisions?		

Changes in burns management: Access to theatre	es
Where do you normally operate on burns cases?	<ul><li>Dedicated burns theatre</li><li>Main theatres</li><li>Other (free text)</li></ul>
If other, please specify	
Do you normally have dedicated theatre lists for acute burns cases?	
If yes, how were these affected by COVID-19:	<ul> <li>○ No change</li> <li>○ Reduced number of dedicated theatre lists</li> <li>○ No dedicated lists; patients on CEPOD lists</li> <li>○ Other</li> </ul>
If other, please specify	
What impact did this have on your operative capacity?	

Changes in burns management: Discharge	
Did COVID affect the social services input you could provide for patients?	○ Yes ○ No
If yes, how?	
Did you face any difficulties discharging patients during the lockdown period?	○ Yes ○ No
If yes, what were these issues?	
	(e.g. social services, therapists, nursing)

Changes in burns management: Outpatient clinics	
Have you continued to deliver elective outpatient clinics?	○ Yes ○ No
How have these been performed?	☐ Face to face ☐ Telephone ☐ Video calling ☐ Other
Other format of elective outpatient clinic	
Have you performed any elective burns surgery?	○ Yes ○ No
Have you been able to offer a laser service?	<ul><li>Yes</li><li>No</li><li>N/A (not previously offered prior to COVID)</li></ul>
What impact has this had on your consultations?	
Have there been any changes to your scar therapy service during the COVID-19 pandemic?	○ Yes ○ No
If yes, what were the changes?	
Have you changed the way patients are managed in the dressing clinic?	○ Yes ○ No
If yes, how?	<ul> <li>☐ Fewer follow-up appointments</li> <li>☐ Increased change of dressings at home (by patient/GP/district nurse)</li> <li>☐ Increased use of outreach services for vulnerable patients</li> <li>☐ Use of remote appointments (telephone)</li> <li>☐ Use of remote appointments (video calling)</li> <li>☐ Use of emails/photographs to monitor wounds</li> <li>☐ Other</li> </ul>
If other, please specify	
Have you delivered psychology sessions during the pandemic?	○ Yes ○ No
If no, why?	
Has this been remote or in person?	○ Remote ○ In person

Page 9 of 12

If remote, has this affected your ability to deliver your sessions?	○ Yes ○ No
If yes, how?	
What impact do you feel the pandemic has had on the psychology service you deliver?	

**₹EDCap**°

Change in burns management: Use of telemedicine	e
Has your use of Telemedicine changed during the pandemic?	<ul><li>○ Increased use</li><li>○ Decreased use</li></ul>
What methods of telemedicine have you used?	☐ Telephone calls to patients ☐ Video calls to patients ☐ Email contact to patients ☐ Other
If other, please specify:	
What has telemedicine been used for?	☐ GP referrals ☐ Patient advise ☐ Patient follow-up ☐ Outpatient clinics/consultations ☐ Other
Other use of telemedicine	
How has telemedicine changed the way that you deliver care?	

Changes in burns management: Supply chain	
Did you have any interruptions to your supply chain of equipment/dressings/creams/medications during COVID-19?	○ Yes ○ No
What did you have shortages of and how did this affect burns management by your service?	
Has your department experienced shortages of PPE? [click those that apply]	<ul> <li>No shortage</li> <li>Surgical Masks</li> <li>FFP3 respirators</li> <li>Visors</li> <li>Gloves</li> <li>Aprons</li> <li>Surgical gowns</li> <li>Scrubs</li> <li>Other</li> </ul>
Other shortages of PPE	
Does the department CURRENTLY have sufficient PPE to work safely?	<ul><li>Yes, not limiting service provision</li><li>Yes, with reduced service provision</li><li>No</li></ul>
How have the shortages of PPE impacted your department?	
Were you given PPE training?	○ Yes ○ No
Did you feel safe using the PPE you were provided with?	○ Yes ○ No
Did wearing PPE affect your work in theatre?	○ Yes ○ No
If yes, how?	<ul><li>☐ Communication difficulties</li><li>☐ Duration able to operate</li><li>☐ Staffing</li><li>☐ Other</li></ul>
Other way wearing PPE affected your work in theatre	
How have you overcome this?	

Changes in burns management: COVID adaptations /	improvements
Has COVID-19 led to any improvements or adaptations in burn care in your centre?	
Which of these changes would you like to adopt in the future?
